BATTLE ON THE NILE

Anglo-Egyptian Forces Attacked by
Dervishes Who Were Speed-
ily Routed.

The Natives Seem Well Equipped for
War and Evidently Mean
Business.

El Haffir Has Been Captured—Will
Now Immediately Advance
on Dongola.

Kerma on the Nile, Sept. 19.—The An-
glo-Egyptian expedition occupied Kerma
this morning and is now only 30 miles
from Dongola. About seven o'clock
this morning the news reached the
expedition which left the camping
place, about 10 miles, at dawn that the
dervishes, alarmed at the size of the col-
umn, had destroyed the position in front
of the Anglo-Egyptian army. A party
of seven dervishes crossed the river at
7:30 a.m., and the artillery commanded
by Young, opened fire against the west
bank, where the dervishes were in front
with camel, foot, cavalry, armed sailing
boats, and one armed steamer. Be-
tween the expeditionary force and the
dervishes were several small islands but
the fire directed upon the dervishes was
well aimed and compelled them to leave
their positions and boats almost immed-
iately. In the meantime three of the An-
glo-Egyptian gunboats had been in sight
and steamed slowly toward the dervish
camp, firing rockets, nine-pounders and
Maxims. The dervishes replied with
their fire of two seven-pounders and so
much smoke was the pieces handled by
them at 10 a.m. one of the Anglo-Egypt-
ian boats, the "Sphinx," on board the
river gunboat Tana, pressed forward
and was suddenly subjected to a very
hot fire from the dervish riflemen hid-
den in pits. Commander Colville re-
ceived a slight wound in his right wrist
and retired slowly out of the enemy's
range in order to use his Maxim guns
with more effect, which he subsequent-
ly did. At the same time the watches
on the east bank of the Nile saw a
gunboat suddenly retire down stream.
It was at first thought that she was
badly hit, but it proved to be a boat
which commander Colville was sending
back to report and ask for further orders.

The Anglo-Egyptians' side of the river
was then engaged, a few companies
opening fire, and as they did so a field
battery, under Park, of the British ar-
tillery, which had taken up a sublimi-
tary position further north, opened fire. Both
of the Anglo-Egyptian batteries directed
their fire on the enemy's rank. The fir-
ing of the Anglo-Egyptian batteries was
excellent. Three successive shells of
Young's battery fell right inside of the
fort. The dervish loss must have been
considerable. All the while the gun-
boats kept up a fierce fire. At one
time they advanced and boldly passed
the enemy's entrenched rifle position,
replying to the dervish fire with heavy
Maxim discharges. The "Sphinx," Sir
William Kitchenor and Staff, who were
watching the proceedings from a knoll
on the east bank, saw these gunboats
pluckily force their way past the dervish
fort. Before finally forcing the
passage, the cavalry, infantry and Maxim
batteries took up new positions only
1200 yards away from the dervishes
and poured a heavy fire into the boats
of the enemy. These boats the dervishes
attempted to take with them in their
retreat. While covered by an attack on
the dervish fortifications, the Anglo-
Egyptian gunboats and steamboats
moved steadily past. These boats are
now steaming as fast as possible in the
direction of Dongola.

During the fire upon the dervish
boats the Anglo-Egyptian field battery
succeeded in sinking the dervish steam-
er. When this shot struck the steam-
er, the enemy's boat overturned.
It now floats bottom side up. When fire
from the Anglo-Egyptian forces had
thoroughly honeycombed the enemy's
first position, the dervishes retreated in
a westerly direction. Nothing is
known of their programme. All the fu-
ture movements of the Anglo-Egyptian
forces depend upon these movements of
the dervishes. If the latter evacuate
El Haffir, the Anglo-Egyptian forces
will doubtless make a forward move-
ment. The dervishes will probably be
ordered forward while the Anglo-Egypt-
ian squadron of cavalry will be detached
to the front for the purpose of rais-
ing clouds of dust, thus impressing the

Dervishes with the idea that the whole
Anglo-Egyptian force is advancing. It
now seems as though the whole dervish
force had occupied El Haffir, leaving the
women and children at Dongola. The
loss of the Anglo-Egyptian forces was
comparatively trifling, only Commander
Colville and one interpreter being slight-
ly wounded.

Cairo, Sept. 19.—Advice just received
from Kerma are to the effect that
El Haffir has been captured by the An-
glo-Egyptian forces. The expedition
will immediately advance on Dongola.

London, Sept. 21.—The correspondent
of the Daily News with the Nile expedi-
tion, in a dispatch from El Haffir says:
"It is possible that being desperate the
dervishes will make a last fight for
Dongola, though I learn there is great
dissension among the leaders and the
850 disabled at Wad Bishara may ma-
terially affect the dervishes' plans."

A Kerma dispatch to the Standard
states the dervish tactics at Wad Bish-
ara, and adds: "The dervishes certain-
ly were well led and they retain much
of their old spirit."

AN ALARMING RUMOR

Reports in London from Constanti-
nople Say the Sultan Has
Been Assassinated.

A Denial That Government is Res-
ponsible for Recent Riots—
Armenian Refugees.

London, Sept. 20.—The Weekly Dis-
patch prints an alarming rumor from
Constantinople to the effect that the Sul-
tan has been assassinated.

Constantinople, Sept. 19.—The Sultan
has issued a long reply to the collective
note of the powers in the matter of the
massacres, which he insists were provoked
by the Armenian revolutionists. He
denies flatly that the riots were known
to and directed by government agents,
and asserts that the Armenians assum-
ed Moslem costumes in order to per-
petrate their crimes.

London, Sept. 19.—A dispatch from
Marseilles reports that Miss Frances
Willard and Lady Henry Somerset have
arrived there in the interests of the Ar-
menian refugees. They state that Ar-
menian sympathy is much needed for the
refugees, and that emigrant ships re-
fuse to take the fleeing Armenians to
New York, as the last who were taken
there were not allowed to land.

The home secretary, Sir Matthew W.
Ridley, replying to a letter from Mr.
Henry B. Seymour, secretary of the
Maybrick committee, who asked the
home secretary to accord humane treat-
ment to Mrs. Maybrick on the same
ground that it was awarded to the dy-
namiter (illness resulting from impris-
onment), says that the report of the dy-
namiter may have the same consideration
as the cases of other convicts.

A dispatch to the Standard from Ma-
drid says that Capt. Gen. Weyler of
Cuba has issued a proclamation which
threatens severe penalties for the non-
acceptance of the notes of the Bank of
Havana at their face value, although
they have already suffered a discount of
10 per cent. The government is en-
forcing this proclamation despite the
resistance of the commercial classes and
of the general public of Cuba.

Cape Town, Sept. 19.—Cecil Rhodes
has warned the Matabele rebels that
unless they quit the Matabele hills with-
in ten days hostilities against them will
be resumed.

Mr. H. Howard, secretary at the British
embassy at Paris, has been appointed
minister plenipotentiary for Great Brit-
ain at The Hague, and Mr. Cassell,
secretary to the British embassy at
Berlin, has been appointed to succeed
Mr. Howard, secretary to the embassy
at Paris.

Lady Henry Somerset writes from
Marseilles an appeal in the Daily News
to collect funds to send refugee Arme-
nians to America. The Daily News, this
morning also prints an appeal from
Miss Frances Willard to her sisters in
America on the same subject. In an
editorial the same journal rejoices to be
able to assist such a project.

SPAIN'S WARSHIP.

An English Firm, the Armstrongs, Se-
cure Two Good Contracts.

New York, Sept. 19.—A Herald dis-
patch from Madrid says: "The commis-
sion charged with the examination of
tenders from English firms for the con-
struction of men-of-war for the Spanish
government have reported in favor of
the Armstrongs, both on account of the
time required for construction and de-
fensive powers. The said firm under-
takes to build a battleship of 11,000
tons in 14 months, and a cruiser of 5500
tons in 12 months, with a speed of 21
knots and with an armament up to 24
centimetres. The price for the battle-
ship is £200,000 and the cruiser £100,000."

RAIL PITCHER DEAD.

Edward H. Crane, the Well Known
Player, Commits Suicide.

Rochester, Sept. 21.—Edward H.
Crane, in his day one of the finest
baseball pitchers in the country, suc-
cided on Saturday night. He had been
drinking heavily of late, became de-
pressed, and threatened to suicide. A
empty bottle of chloral was found in his
room yesterday, which told the story.
For twelve years he was prominently
identified with the name, won the cham-
pionship of the world for New York
over the St. Louis Browns, and played
in Toronto a few years ago.

Prompt relief in sick headache, dizziness,
nausea, constipation, pain in the side, con-
stipation, guaranteed to these using Car-

DR. BERGIN IS DEAD

The Member for Stormont Falls
Down a Flight of Steps and
Death Speedily Ensues.

Hon. Mr. Davis is Coming West
Immediately After the
Session.

Hon. Joseph Martin Round West—
Globe and the Manitoba
School Question.

Ottawa, Sept. 21.—Dr. Darby Bergin,
member for Stormont, went home to
Cornwall on Friday. In the course
of the evening he fell down a flight of
steps, which rendered him unconscious.

A stroke of paralysis followed and he
died on Saturday evening. Arrange-
ments have been made by Conservative
members to send a wreath. Deceased
was very popular.

Lieut.-Col. Bergin, M. D., was the
eldest son of the late William Bergin,
C. E., who came from King's County,
Ireland, to Canada in 1820, by the
daughter of the late John Flanagan,
of Charlottetown, Glenagry, Ont. He
was born in Toronto on Sept. 7, 1829,
and was educated in Upper Canada Col-
lege. In 1847 he graduated as M. D.
from McGill University. He was one
of the examiners in Ontario College of
Physicians and Surgeons, and a trustee
of the Cornwall high school. He en-
tered the volunteer militia service as
captain of a company raised by himself
during the Trent difficulty in 1861. In
1868 he became a major and was pro-
moted lieutenant-colonel of the 50th
Stormont and Glenagry battalion in
1882. During the Northwest rebellion
in 1885 he acted as surgeon-general to
the forces. He was first returned to
parliament by acclamation for Cornwall
at the general election of 1872. He was
an unsuccessful candidate in 1874.
In 1878, however, at the general elec-
tion, he was again returned, but was un-
seated on petition. At the election on
January 27, 1880, he again secured his
seat. The following elections of 1882,
1887, and 1891 saw him sent to the
House. He was a Liberal-Conserva-
tive.

Mr. Morrison waited on the minister
of marine and fisheries with a view of
getting him to pay a visit to British Col-
umbia immediately after the session, in
view of the conflicting overtures made
by British Columbia fishermen from
time to time. Hon. Mr. Davies promised
to do so.

Dr. Milne, of Victoria, B. C., arrived
this forenoon.

It has been learned on good authority
that Wm. Wainwright, assistant gen-
eral manager of the G. T. R., has been
offered and has refused to accept the
position of general manager of govern-
ment railways in Canada.

Hon. Joseph Martin left for the west
on Saturday evening.

Hon. E. Bronson has recommended
the appointment of A. J. A. Ritchie, of
Mr. Belmont & Ritchie, to the county
crown attorneyship of Carleton, made
vacant by the resignation of Mr. Bel-
court, M. P.

Hon. Dr. Borden, minister of militia,
has gone to Niagara camp.

The Irishmen of Ottawa have arranged
for a reception to the Hon. Mr. Con-
tigan.

L. A. Hamilton is here on business
with the interior department.

Hedmond, Greenlee & Co., Winnipeg,
have applied for incorporation.

Deposits in the postoffice savings
bank exceed withdrawals by \$105,000,
and in the government savings bank by
\$23,000.

A postoffice has been opened at Thur-
low, Huron district.

There is said to be a tacit understand-
ing between the government and the Op-
position with regard to the possibility
of reaching prorogation a week from
next Wednesday.

Toronto, Sept. 21.—The Globe says
editorially: "We announced during the
North Grey campaign that the school
question was practically settled, and
that the Liberal government would not
attempt to pass any remedial legisla-
tion dealing with the subject. We made
that statement in good faith. It was
accurate, and it remains accurate. Our
contemporaries who are now smiling at
the government and manufacturing a
deadlock and crisis will probably not
have long to wait for convincing evi-
dence of the truth of the Globe's state-
ment. There will be no coercion under
Mr. Laurier."

An agitation is on foot to inaugurate
a mine section in connection with the
board of trade. The organization of
such a section, its promoters claim,
would be the means of keeping consid-
erable money in Toronto, which, accord-
ing to local mining speculators, now goes
daily to Chicago.

The Gates Lumber Co., of Bay City,
Mich., which recently failed with li-
abilities of over one million dollars, as-
signed their Canadian interests to Mr.
Clarkson for the benefit of the Cana-
dian creditors. The assets consist prin-
cipally of timber lands in the Georgian
Bay district.

The Winnipeg delegation that went
from Mr. Martin in the cabinet, had a
most interesting and instructive in-
terview with Mr. Laurier to-day. They are not likely
to succeed.

Miss "Cass"—Harrison's daughter is
now out for a medium. She has
been taken in the upper air, they tell
us.

"I hear this every day, myself.
Somehow they sell 'morsels' and
sometimes 'bricks'—Christmas! Es-
quire."

FOUR FROM THE WEST

British Columbia's Quartette of Liberal Members of the House of Commons.

Racy Descriptions of Messrs. Bostock, McInnes, Maxwell and Morrison.

(Toronto Telegram Correspondence.)

Ottawa, Sept. 13.—Full in the centre of the sixth row of Liberal benches, in seats that are slightly situated, as estate agents say, sit four notable young gentlemen. One of them may be considered young, but in order to carry out the duties of his office, he must be considered young. They come from the land of towering crags, of Chinamen, of Culivort, Sweet Singer to the Legislators of Canada, of Douglas, of the canals and of gold fields. Not to conceal their identity any longer, permit me to state that they are the four wicked Grits from British Columbia, who upset the calculations of sundry betting men in Toronto.

Now, it is a tough piece of business this writing about men whom one meets every day. One may sail along in the summer sea of good-fellowship until some day something creeps into print that has most awful consequences. The man whom you thought ready to take anything good-naturedly, while about and shows himself to be sensitive, if not thin-skinned. Once upon a time there was a man who had been in Opposition many years. He was considered by many to be the coolest-headed—and most imperturbable politician who ever whipped in a party. But something got into the papers about him. Gone was the imperturbability, vanished the savor. I shall not say that the two adjectives that I have used were entirely applicable in his place, but he protested. And yet he was an old politician. But, as has been said, he was in the Opposition. When a man's seat is on the left he is treated with much more consideration than he receives after he crosses the floor.

But to use an expression that has done duty several million times before, this is a digression. This letter began with a couple of sentences about the quartette from British Columbia. I know very little about any of the gentlemen. Therefore I shall write a comprehensive sketch of them.

There they are. Nearest the Speaker is Hewitt Bostock. Mr. Bostock has so much money that the most extravagant stories have been set in circulation regarding his wealth. Look at him and one would say, "There's a clean-cut chap. He knows what he wants. He has views. He would be poor material for the skillful confidence man to exercise his skill on." And one would be quite right. Bostock has many iron in the fire, but say men from British Columbia, he neglects none of them. A few years ago he was called to the bar in England. He is a college man, of course. And a fact which seems to surprise everybody—he is married. He went to British Columbia because the country furnishes a good field for investment. He must have found it to his liking, for his interests in the province are many. So far he has said nothing, a fact which is characteristic of the man, if I know anything about physiognomy. He will talk when talk is necessary. But in the vernacular, he won't look for trouble. Before this parliament dies Hewitt Bostock will be much better known in Eastern Canada than he is now.

You have read already of W. B. McInnes. He it was who moved the address in reply to the speech from the throne. McInnes went to Toronto University, whence he graduated, as did other eminent gentlemen at various times, in 1889. When McInnes made his speech in the opening days of the session he made a mistake regarding his environment. He had too much of the stump speech in his address, but he had some solid thought in it. Behind those glasses which make the baby member look older than he is, there is a head that has something in it. McInnes, too, is a married man and a father. His chances have been of a kind that have not been vouchsafed to many young men. He has the requisite wealthy father; he has determination, and he has brains. In this parliament of young men he has as good a chance as any of them of coming to the front.

Hall to Maxwell, the latter of Mongolians, and unluckily of Li Hung Chang. As you have heard, Maxwell is a reformed parson, and of the Auld Kirk at that. Twelve years ago he came to Canada from Scotland, where he had been ordained. Six years he spent in charge of a congregation at Three Rivers. Then he made up his mind to go to British Columbia. Until last spring he had a church out there. The day came when he defied the clerical girth. Now he is a politician. If I mistake not we shall hear from him more often than from any other member of the aforesaid quartette. From the pulpit to the forum of the people is not a far cry. Maxwell has a remarkable facility in speaking, and he has a vigorous way which must have edified many a staid elder when he talked of justification, or any other of the themes that are so much in favor in his church. Maxwell says that he is in politics for good. Like other men in this house, he sees possibilities ahead for the earnest and thorough worker. When he talked on the Chinese question the other day we had a taste of his quality. And a very fair quality it was.

From the shores of the sounding sea, where the houses of the inhabitants are tinted with a delicate azure, went Aubrey Morrison to British Columbia a few years ago. Now he is one of the coming barometers of the Pacific Slope. He is more like our Toronto young men than is any other of the four. The other day, in fact, I met him when he was once a Toronto man. George Merand, once great at kicking drop kicks on "Varsity" lawn, and the moving spirit at literary societies elections. A school-boy-looking fellow in Morrison, with the firm jaw and the kindly eye that says "come Rev. and that he himself came by warrentable. It should be men like Morrison who should be sent to the new countries to build them up. He has determination and tact. And

because he is a lawyer and a Nova Scotian, he can talk. He made a little speech the other day that showed us his powers. When he makes another and a longer address he will prove that he need fear comparison with none of the House's recruits.

In a recent letter to the manufacturers Mr. W. F. Benjamin, editor of the Spectator, Rushford, N. Y., says: "It may be a pleasure to you to know the high esteem in which Chamberlain's medicines are held by the people of your own state, where they must be best known. An aunt of mine, who resides at Dexter, Iowa, was about to visit me a few years since, and before leaving home wrote me, asking if they were not she would bring a quantity with her, as she did not like to be without them." The medicines referred to are Chamberlain's Cough Remedy, famous for its cures of cold and croup; Chamberlain's Pain Balm for rheumatism, lame back, pains in the side and chest, and Chamberlain's Colic, Cholera and Diarrhoea Remedy for bowel complaints. These medicines have been in constant use in Iowa for almost a quarter of a century. The people have learned that they are articles of great worth and merit, and unequaled by any other. They are for sale here by all druggists. Langley & Henderson Bros., wholesale agents, Victoria and Vancouver.

THE FAIR AT NANAIMO

Third Annual Exhibition at the Nanaimo District Agricultural Association.

Many Excellent Exhibits of Farm Products and Fancy Work—The Prize List.

Nanaimo, Sept. 19.—The third annual fair of the Nanaimo District Agricultural Association, which was held in the city park on Friday and Saturday, was the most successful exhibition yet held by the society. The entries were more numerous and of better quality than in previous years. As there is no accommodation in the park for live stock there were no entries in this class. The president of the association, ex-Mayor, Quennell, being unable to be present on account of his recent accident, the exhibition was opened by Mayor Davidson. The exhibition was held under the patronage of the Nanaimo District Agricultural Association, and the prize list was as follows: President, Mr. S. M. Robbins. The officers of the association are: Ex-Mayor, Quennell, president; H. L. Bates, vice-president; W. H. Martin, secretary;

CANADIAN NEWS.

Charged With Murder—Montreal Matters—Winnipeg Skeleton.

St. John, N. B., Sept. 19.—Three Indians are in jail at St. Andrew's, charged with the murder of Michael McMonagle, near St. Andrew's, on Wednesday. The Indians reported that McMonagle had fallen out of a canoe and been drowned, but two young men from Calais, who were out fishing that day, declare they saw the Indians beat and rob McMonagle and throw him overboard.

Montreal, Sept. 19.—Rev. Father Plut, of the Society of Jesus, dean of the regular and secular Catholic clergy of Canada, is dead here at the age of 90. He was born in France in 1809 and was one of the deacons at the coronation of Charles X., the last legitimate king of France, in 1829. Father Plut was in possession of all his faculties to the last.

Before leaving Vancouver for home, H. Hung Cheng dispatched the following telegram to Mr. George Foster, of Montreal: "Please tell my countrymen in Montreal that I warmly thank them for all their kind wishes. Farewell."

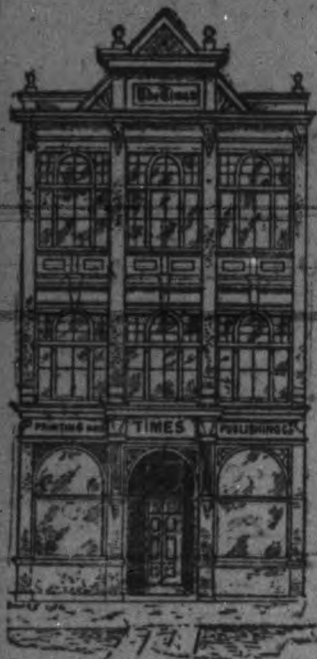

Winnipeg, Sept. 19.—The skull of the skeleton found on Portage avenue was taken out to-day, and there is but little doubt but that the bones are those of Thomas Scott.

FISHING SEASONS.

Fishermen on the Fraser are quoted as predicting that when the regular season for fishing coho salmon opens, on the 25th inst., very few of these fish will be found in the river, the run being almost over. Repeated attempts have been made to induce the fisheries department to advance the season a few days, but without success, and it appears probable that the canneries will have but little chance of securing a catch of coho. The circumstances here point anew to the conclusion which the Times formerly drew, namely, that the fishing season should be made to accommodate itself to the "run" of fish, instead of being bound by hard and fast dates. But the action of the department may perhaps be explained by its experience in connection with the sockeye season. When representations were made to the minister that an extension of the season would be beneficial to the canners he promptly granted the extension and he was rewarded with a plentiful shower of abuse. It is hardly to be wondered at that he should therefore be unwilling to allow any further changes in the open season. Very probably the canners on the West Coast and those who are now disappointed in the matter of the coho run have reason to seek the cause of their disappointment in the ungrateful blackguarding bestowed on the department for its obliging disposition.

EMIGRATING CANADIANS.

Montreal papers give elaborate descriptions of the scenes which accompanied the departure of the steamship Moravia with a load of Canadian emigrants bound for Brazil, on Tuesday last. This contribution from Canada to the population of the South American republic is described as embracing five hundred Irish, French and Italian people. It seems that the Brazilian government undertakes to pay the passage of the Canadian emigrants, to keep them in food, etc., for a time after their arrival in Brazil and to provide them with free lands. On the other hand, warning has been given the intending emigrants that their lot in Brazil is likely to be a most unpleasant one. The climate is an unhealthy one for Europeans and North Americans, yellow and other fevers being prevalent. Then the experience of a number of Germans who went to settle in the country would seem to convey a warning by itself. Those poor people were apparently misled by some such promises as are used to tempt Canadians; they were to find plenty of work on the coffee plantations, to be furnished with free lands, and so on. But in time most of their number fell victims to the fever-breeding climate, while the remnant surviving found themselves in a state of virtual slavery. Whether the five hundred people who left on the Moravia were aware of these facts is not known. In any case it is rather strange to find so large a number of people going in one group from a country which should furnish them with plenty of room and opportunity for work to another which holds for them a fate at least doubtful. A partial explanation no doubt lies in the restlessness and desire for change which dominate many people in all countries. But there is more than that cause at the back of the movement. As an exchange remarks, Canada should be attracting people instead of losing them; the flow of population should be inward. The million Canadians who have gone abroad should have found plenty of scope for their energies in developing

the riches of their native country, and millions of people from abroad should have found room to work beside them. Surely it would be well if the causes for Canada's lack of population were found and removed.

SUIT FOR LABEL.

To the Editor: Seeing that an employee of the corporation has entered an action against one of the aldermen, it will be incumbent on the Mayor to suspend the city engineer, as he said he would have to do with Sanitary Officer Conlin if he persisted in his action against Ald. Partridge. Such an action will be endorsed by nine out of ten ratepayers, and when once suspended there is little doubt as to whether he would be reinstated again. It is gratifying to be able to note that steps are being taken whereby Alderman Macmillan shall not suffer in any event, and some who were his bitter opponents last year have signified their intention to render such assistance as may be required in protecting the alderman from persecution. RATEPAYER.

LI HUNG CHANG AND OUR CHIEF OF POLICE.

To the Editor: It appears that on the occasion of Mr. Sheppard being introduced into the presence of this distinguished official, that he made enquiries of him as to the general conduct and behaviour of the Chinese population. In reply, and it occurred to Mr. Sheppard, it would have been well to have drawn Li Hung's notice to the fact that unfortunately there was a certain portion of them amongst us afflicted with leprosy, that they had to be taken charge of, at the expense of our municipality, and that it was impossible to return them to their own country in all fairness the Chinese government should pay the cost of their maintenance here. To remedy Mr. Sheppard's omission it would not now even be too late after ascertaining the cost to this community of the care of these sufferers to send the bill to Li Hung for his patriotic consideration. A RICH FIND.

Discoveries of Tellurium Gold Ore—To Explore Tiburon Island.

San Diego, Cal. Sept. 19.—The Union this morning publishes an account of Mr. Worman's discoveries of tellurium gold ore on Boulder creek, 50 miles east of this city and an interview with Mr. Worman telling of the discovery and its value. Great excitement exists in this city and county over the new finds and prospecting parties are fitting out for the new field. The camp is located 20 miles northeast of this city at the foot of Canyon Peak and about eight miles from the Julian mines. The formation of the new field is porphyry and granite with occasional dykes of slate. The schooner Raymo, with a party of San Franciscans on board, has arrived in port en route to the Mexican coast on a pleasure cruise. She will enter the gulf and members of the party hope to land on Tiburon Island and explore the interior for gold. A similar expedition from Yuma three years ago resulted in the murder of R. E. Robinson by Seri Indians on the island.

WILL ERECT A MILL.

Considerable Work Being Done on the Goldstream Ledge.

Mr. J. A. Lawrence, who has secured control of a number of claims on a ledge in the Goldstream mountains, leaves for San Francisco during the present week to purchase a five stamp mill. There have been a good many stories in circulation regarding the richness or otherwise of this ledge. Notwithstanding these reports, some of which were hardly encouraging, Mr. Lawrence has shown his confidence in the property by spending considerable money on it. He has built a road from the old saw mill road, which runs into the main wagon road about five miles above the Goldstream House, to a gulch from which he obtained his best assays. He is building a house for the miners, and as stated above, he now intends to purchase a stamp mill. If this pays as well as he expects he will purchase more machinery. Claims have been staked off on the ledge from the railway, near the "Double Header" canyon, right through to the main trunk road. There are several old tunnels in the ledge, out of which Mr. Lawrence says he has obtained some splendid assays.

AGAIN IT IS A TIE

Capitalists Win the Lacrosse Match Which Places Victoria Even With Vancouver.

Entries for the B. C. Stakes to be Run During the Fall Race Meeting.

LACROSSE SATURDAY'S MATCH.

Victoria has still a fighting chance for the 1896 lacrosse championship. The Capitals met and defeated the New Westminster lacrosse team at the Caledonia grounds on Saturday afternoon, thus securing five matches for the season, a number equal to the victories achieved by the representatives of the Terminal City. If the Royal City boys defeat Vancouver when they meet cross sticks, the decisive battle will then be between Victoria and Vancouver. If Vancouver wins the next match she takes the pennant.

Saturday's game was free from slugging and rowdiness of every sort. Both teams played lacrosse and lacrosse only. The Capitals had two new players—recruits from the intermediates—and they handled their sticks in a manner becoming their positions among the veterans. One of these, S. Norman, was in goal, and to him must be given the credit for saving the Capitals from defeat. Shot after shot was made on the flags, but Norman was always there and returned the ball to a safe position. K. Schofield also did effective work in the centre position. The first game was won by Victoria in 9-14 minutes. The second and third were also won by the home team in 26 and 5 minutes respectively, after rather rugged playing on both sides. The Royal City men did some pretty combination work in the next two games, winning them in 5 and 6-14 minutes. There was only 7-12-2 minutes to play. Both teams got down to work and played exciting lacrosse, but the whistle blew before either scored. T. Watson captained the Capitals and J. Mahoney the Royal City men. Messrs. Smith and Drury were behind the flags. Mr. W. E. Ditchburn, of Victoria, refereed the match in a manner which gave satisfaction to both sides.

THE WHEEL ROAD RACE.

Considerable interest was taken in the road race to Sidney on Saturday. Albert Deuping won the professional prize (\$15), covering the distance in 1-07-15. The only other competitor in this class was Leroy, who finished in 1-21. Ernest Wolf won the first amateur prize, being only 15 seconds behind Deuping. Fred Humber was a good second, finishing only a few seconds behind Wolf. Deuping did the pacing, and the way Wolf and Humber hung on to the champion's wheel was a surprise to all. Humber unfortunately fell just before reaching home.

THE MANITOBA MEET.

Winnipeg, Sept. 19.—The championship bicycle meet for Manitoba was held here today. The feature of the day was the riding of C. W. Riddell, of the Rover Club, who won nearly every event in which he entered as he pleased. Riddell is but 18 years of age, and is riding for his first season. He gives promise of great speed.

BARKER SUSPENDED.

Toronto, Sept. 19.—The C.W.A. Racing Bulletin announces a meet on Oct. 8th, at New Westminster, B. C. Chas. F. Barker, of Vancouver, is suspended till Nov. 1st for using abusive language to officials in charge of race meets. The offence for which Barker has been suspended occurred at the carnival meet and resulted from an official accusing him of loafing and doing dirty work in the mile race which the referee ordered to be ridden over again. Barker objected to these charges and hot words ensued. The matter was referred to the local chief consul, who forwarded the evidence of the C.W.A. board, with the above result.

half a mile at Manhattan Beach to-day. Time 1:01-5, starting from scratch. SMASHED ALL AMERICAN RECORDS.

New York, Sept. 19.—James Michael, the Irish wonder, smashed all the American records for one hour's competition paced race this afternoon at the first annual circuit meeting of the Quill Wheelmen at Manhattan Beach. Twenty-seven miles and 1000 yards stands to the credit of the Irishman for one hour, but Frank Starbuck, of Philadelphia, was only thirty yards behind him at the finish, and only for some bad blundering on the part of his pace-maker, Starbuck lost a little more than half a mile in the early part of the contest by having no pacemakers, but in the last twenty minutes, even at the terrific gait both were travelling, succeeded in not only passing his competitor, as they spun around the track, but had nearly caught him at the finish, having gained nearly a lap and a half.

Some of the credit of this wonderful exhibition of endurance and speed was due to Starbuck's pacemakers, who evidently tried to make-up for their early blundering and in a great part succeeded.

THE TURF.

The tandem event was won by W. Adams and P. Norris. Messrs. W. Adams, H. Grant, A. Harvey and P. Norris won the four paddle canoe race. The single scull race was won by W. Adams and the York Bros., steered by Miss Alice Reifern, won the dory race.

CRICKET.

AT PHILADELPHIA.

Philadelphia, Sept. 19.—The United States eleven concluded their first innings to-day for 123 runs, and the Australians had lost nine wickets in their second innings for 165, which was 102 made in their first innings, gives them a total of 355.

MISCELLANEOUS.

Rochdale, Eng., Sept. 19.—Frederick Bacon formerly the one mile amateur champion runner of England and who was recently barred out of amateur athletics by the association, won the four-mile match race here easily to-day, defeating Hunsford, who was anxious to accept the challenge Bacon issued to Connel. Bacon won by 30 yards in 20-44-45. The match caused considerable interest in sporting circles as Bacon is matched to race Connel, formerly the American champion mile runner.

A Dominion Exhibition...

All over Canada, to-day and to-morrow, in every city and town, in the windows of the principle dry goods stores, there will be an exhibit of the famous

'Health Brand'

Men's Underwear

These windows will be set apart to give the public an opportunity of seeing the great variety of styles and shades produced in the "Health Brand."

You will see that the finest underwear can be sold at reasonable prices—that a perfect fit and a perfect finish can be produced by Canadian skill. Above all, that the "Health Brand" is made of purest wool—made absorbent, but not irritant—made in sizes to fit any figure—made in fact, to be returned if not just right. Can you ask more. An endless variety of Ladies' and Children's underwear is also made in the "Health Brand."

British Columbia hops are likely to
command a good price in the London
market as the English hop crop is al-
most a failure. A late dispatch says
that the unprecedented continuance of
cold rains which have now prevailed for
nearly six weeks is likely now to re-
duce the first estimates of the English
hop crops. A month ago it was thought
that the crop would be only a third less
than that of 1895, but now, what with
mould and rot, it is doubtful if even
half a crop will be saved.

was accidentally discharged. The bul-
let entered the abdomen, cutting through
the intestines and inflicting what will
probably prove a fatal wound. The un-
fortunate lad was taken to the Jubilee

the medical men in attendance hold but
slight hopes for his recovery.

has a gang of men at work placing a
coating of gravel on the Cedar Hill road
just north of the church. Residents of
the locality state that this was one of

gravel been placed on the road a little
further north it would do some good,
but as it is a good piece of road is being
ruined.

A PATRIARCH'S DEATH.

Wm. Wilson, Sen., Aged 94 Years, Dies
at Jubilee Hospital.

William Wilson died at the Provincial
Royal Jubilee Hospital last evening,
aged 94 years and 10 days. He was
father of Alexander Wilson and Ald.
Wm. Wilson, of the well known firm of
A. & W. Wilson, Broad street, with
whom he has resided since coming to
British Columbia in 1883. Deceased
was born in Banff, Scotland in the year
1802, where he learned the trade of a
stone mason, coming to Canada in the
year 1831. With a number of other
enterprising and industrious young
Scotchmen he settled in the city of
Quebec, where for 22 years he carried
on business as a builder, during that
time erecting what were in those days
several of the largest buildings in the
city, including the Bank of Montreal,
the gas works, Chalmers' church and
many others. With partners he com-
pleted one of the first contracts on the
first Cornwall canal, about the years
1835-36.

Deceased was a remarkable man.
Possessing in a marked degree that in-
dependence of character which is a lead-
ing trait of the Scottish people, sterling
integrity, unflinching courage, a mar-
vellous memory which remained unimpaired
until the last, and a mind well stored
by reading, he was for half a century a
conspicuous figure in the old city of
Quebec. He retained a vivid recollec-
tion of the days of Waterloo, could de-
scribe minutely the first steamer to
cross the Atlantic, the Royal William,
built in Quebec in 1833, and as a mem-
ber of a company of young Scotchmen
who shouldered their muskets for the
government in the rebellion of 1837 he
remembered the scenes and incidents of
those stirring times as clearly as though
they occurred but yesterday. He was an
able and eloquent speaker, a liberal
school and a staunch localist; and to
his sons and those who knew him in
his later years he would occasionally
describe the stirring times that preceded
the union of the Upper and Lower Can-
adas and the subsequent incidents in our
history that antedate Confederation. A
man of iron constitution and indomitable
will, he lived to patriarchal age in the
possession of splendid physical and men-
tal powers. He remains will be inter-
red to-morrow at Rose Bay, the funeral
leaving the residence of Mr. Alex. Wil-
son, Cadboro Bay road, at 3 o'clock.

Crew of the British Ship Warren
Charges the Captain With
Cruelty.

Boston, Sept. 19.—Sixteen members of
the crew of the British ship Warren,
Captain Kitchen, which has just arrived
in port, reported at the British consul's
office and preferred charges against the
captain, second mate and steward,
which, if true, indicate unusual cruelty
and brutality. The complaints of the
men in substance are that on several
occasions when sailing from Manila
last December the second mate and
steward beat the men unmercifully
with belaying pins, besides setting the
captain's dog on them. This dog, ac-
cording to the crew, is a large, ferocious
Russian hound, trained especially to ter-
rorize the men on board the ship. The
captain, when summoned to a prelimi-
nary examination by the consul, laughed
and said: "I know nothing about the
charges. There was no trouble on board
the ship." He admitted owing the dog,
but refused to talk further. The case
will come up for a hearing again in the
consul's office, when the crew and all
the officers will be asked to testify. A
statement written by a member of the
crew and signed by all the men recites
that sailors were beaten until covered
with blood and seriously bitten by the
dog. On the passage from Rio de Jan-
eiro, the port whence she sailed from
Cebu, Philippine Islands, and thence to
Boston, the boatwain, who had been
laid up for four or five weeks with fever,
was buried at sea, although what
some of the crew thought were signs of
life were apparent.

Messrs. Macrae, Lawson, Balcom and
Nangle, hunters from the schooner For-
tuna, arrived in the city in a small boat
last evening. They left the schooner
off William Head, whence she lay be-
calmed. The Fortuna after leaving the
Japan coast went to Copper Island,
where she secured 231 skins, making a
total of 708 for the season. On the
24th April last Moses Andrews, a hun-
ter, and Dan Clifton and Peter Hart-
man, boat puller and steerer respective-
ly, left the schooner early in the morn-
ing. In the evening a storm sprang up
and the unfortunate men were returned
to the schooner. It is supposed that their boat
capsized and they were carried away by
strong currents. Andrews belonged to
Victoria, but Clifton and Hartman were
shipped in Hakodate.

Just before leaving Copper Island the
Fortuna spoke the Elsie, Captain
Curry, with 350 skins. The captain
was anxious to secure at least 1,000
skins, and intended to remain there un-
til he secured that number.

H. M. S. Comus returned to Equi-
valent from Vancouver on Saturday eve-
ning. During her two weeks' trip the
Comus cruised up to Comox and among
the islands of the gulf. The officers ex-
plain that when the man-of-war ground-
ed in Baynes Sound the weather was
very thick. The vessel struck at nine
o'clock and she floated at three in the
afternoon with the high tide. It is re-
ported that the Comus is taking water
two inches every four hours, and she
will be placed in the dry dock to repair
damages.

On Saturday the C.P.N. Co.'s steamer
Teas arrived at Steveston with 12,000
cases of salmon from northern canner-
ies. These will form a portion of the
large quantity of salmon to be shipped
from the coast. The Teas brought down
the following passengers who came over on Saturday
evening on the Charmer: T. Robinson,
M. Ward, J. Hepburn, Mrs. Dodgson,
Miss R. A. Dodgson, C. A. Raystad,
C. Roles, C. J. Knight, F. Hall, A. Nas-
si and H. Dratt.

On Saturday morning the Hupoh, un-
der special charter to the C. P. R., left
Vancouver after loading 500 tons of
floor for Hong Kong. She called at
Union for coal and passed the outer
wharf last evening on the way to Port-
land, where she will take on a full cargo
of flour. Mr. Fullerton, who was a
passenger on the Hupoh, landed at the
outer wharf last evening, and will wait
for the Empress due on Tuesday.

The four-masted bark City of Adel-
phi, which for the past four weeks has
been loading lumber at the Brunette
Sawmills, New Westminster, was an-
nounced to sail yesterday. The cargo
comprises 600,000 cubic feet of first
class lumber, while, in addition to this,
there is a deck load of 90,000 feet. This
lumber is for the Australian market, the
ship proceeding direct to Melbourne.

The bark Richard J. H. is anchored off
the outer wharf waiting for the Lorrie
to tow her to Union where she loads
coal for San Francisco. The Lorrie will
leave for Vancouver this evening with
the ship Drimelife in tow.

The schooners Diana and Casco are

discharging their skins at the Hudson
Bay Co.'s wharf. The Diana was towed
in from the straits last evening, and the
Casco on Saturday afternoon.

The Georgetown mill steamer Nell ar-
rived from the north last evening with
Walter Williscroft and family on board.
The Nell will be repaired before return-
ing north.

The Quadra is at present engaged in
overhauling and replacing junks in the
harbor at Nanaimo.

The steamer Maude will leave for the
West Coast to-morrow evening.

SALOON MEN FINED

Judgment Given This Morning in
the Omnica and Palcos
Saloon Cases.

Proprietors Ordered to Pay a Fine
of Thirty-Five Dollars
and Costs.

Magistrate Macrae this morning gave
his decision in the cases of Charles
Tulk, of the Omnica Saloon, and H.
Siebenbaum, of the Palcos saloon,
charged with selling liquor during pro-
hibited hours. The point on which both
cases hinged was as to whether a con-
stant having seen liquor on a bar, could
positively swear that it was liquor with-
out tasting it or smelling it. Written
judgments were given. The following is
the judgment in the Tulk case, which
was exactly the same as the other:
Hawton vs. Tulk.—In this case Chas.
Tulk, keeper of the Omnica Saloon, on
Government street, a place in this city
in which liquor is sold by retail, was
charged before me on Thursday, the
10th inst., with having in the said saloon
unlawfully disposed of intoxicating
liquor to a customer between the hours
of 11 o'clock p.m. and midnight of Sat-
urday, 5th inst., contrary to Section 4
of the "Liquor License Regulation Act,
1891."

It was proved by the sergeant of police
who laid the information, that about
midnight on Saturday, 5th inst., he was
attracted to the defendant's saloon by
hearing "considerable talking" inside;
that the front door was closed and he
was unable to open it; that he went
through a passage to the side door which
also was closed so that he could not
open it; that on his knocking the door
was promptly opened from the inside by
a young man who, as soon as he recog-
nized the officer, tried, but unsuccess-
fully, to close it against him; that he
pushed his way in; that the defendant
was behind the bar in his shirt sleeves;
that there were seven men in the bar
room, four or five of them in front of
the bar; that one of them was in the
act of drinking something out of a
glass, which he held to his mouth; that
the defendant "grabbed" the glass from
the customer and put it behind the bar
before the officer could ascertain what it
contained; and that the customer turn-
ing to the officer said, "It is all right,
Sergeant, I am drinking ginger ale."

To the officer's remark to the defend-
ant that he had just taken the glass
from the customer the defendant made
no reply.

The witness further testified that an
hour afterwards on the street in front of
the saloon, the defendant, referring to
the officer's recent visit, said to him: "I
should not have given it to—" (the
customer, naming him) "only to keep
him quiet, as when he is drunk he goes
outside and talks."

The customer, after being sworn, said
that he had been drinking from about 1
p.m. that day; that he had no recollec-
tion of being in the Omnica saloon or
of having seen Sergeant Hawton that
night; and that he never called for gin-
ger ale when he was drinking.

No other witness being called for the
prosecution, counsel for the defence sub-
mitted that there was no evidence to
answer and that the information ought
to be dismissed. I therefore adjourned
the hearing until the 17th inst., when
I intimated that in my opinion there
was evidence sufficient to be left to a
jury on a trial, and that it lay upon
the defendant to rebut the prima facie
case that has been made out.

No evidence was offered by or on be-
half of the defendant.

And now, hearing in mind that I sit
instead of a jury of twelve men who, in
order to convict, would all have to be
satisfied with the guilt of the defend-
ant and also that the person charged is
entitled as of right to the benefit of any
doubt that I may entertain, I convict
the said Charles Tulk, of the offence
charged in the information, and adjudge
him to forfeit and pay a fine of \$35 and
\$2 costs. The penalty to be levied by
distress; and in default of distress, the
defendant to be imprisoned for one
month.

Mr. Siebenbaum has given notice of
his intention to appeal to a higher court.
Mr. Voss, of the Queen's Hotel, who
also gave notice of an appeal, has decid-
ed not to do so.

KARLOOFS.

James Blair has assigned to J. J. Carment.

Thomas O'Connor, an inmate of the Old Men's Home, aged 67, died in that institution early this morning. Deceased came from Fort Steele last January. He had followed mining and prospecting in the province for years.

On Monday night engine No. 264, with 22 loaded freight cars, was crossing the Columbia River bridge when it ran into a spur on the east side of the bridge, the consequence being that the engine, tender and six cars fell a distance of some 20 feet. The engine, Jack McKinnacher, and William Hume, fireman, jumped to the ground as soon as they were aware that the train was running on to the spur, the engine first signaling "down brakes." The engine was badly wrecked and the cars were considerably damaged. No one was hurt. Someone had turned the switch and forgot to replace it, and the night being dark it was not noticed until too late to prevent a smash-up. Among the wreckage were two cars of rock, two cars of shingles, one car of ties and one car of pavement blocks. Fireman Hume had been watching the train as it crossed the bridge. The wrecking crew are working on the wreck.

NAKUP.

The C. P. R. have built a railway barge for the transfer of freight cars from Arrowhead to Nakup, and vice versa. The barge will take six cars at a time. A tug is being built for towing it. By this means the C. P. R. will save an extra handling of all freights for Slooten points.

A. G. McAndrews, of Victoria, was among last night's arrivals.

Pater Clark, president of the famous War Eagle, has returned from Spokane upon being interviewed Mr. Clark said: "It is still the same. We are the owners of that property and it is amusing for me to read and account of the confirmation of this deal in every paper I pick up. Upon being asked what the prospects were he said: 'The purchasers will have to pay us for our property and we are practically no further ahead with the deal than we were on the 31st of August.'

ROSSLAND.

This morning the Canadian Pacific Telegraph Company took over the wire they had leased to the Vernon & Nelson Telephone Company and started the business men of Rossland by renouncing a reduction of 50 cents on all east bound and 25 cents on British Columbia business. This action, no doubt, was brought about by the action taken by the Western Union in extending their wires to Rossland. This has long been wanted, and no doubt the C. P. R. will have a first class service in the Kootenays and the operator will let the term become obsolete, "wire down north today." Superintendent James Wilson, of the C. P. R. system in British Columbia, is here making the transfer. The local telegraph rates from Rossland to Arrowhead and all intermediate points is now 25 cents for ten words.

NEW DENVER.

The Highland, a claim on the Galena Farm, owned by James Delaney, J. C. Bolander, D. A. Van Doran and Jack McClement has been bonded to H. T. Bragdon for \$8,000. The payment is to be made on January 11.

What is the shortest thing on earth? The Kootenay mail service. Who discovered Rossland? A man from Bruce. How long is the wagon road from Three Forks to New Denver? About ten years. When is the close season for claim jumpers? There is none. Did the B. C. Government come to America in the Ark with Noah? No. It was here before his time. Where are cyclones born? Principally in Kaslo. When will next Christmas be? On the 25th of December if Captain Fitzsimmons does not veto it.

The Ottawa, on Springer creek, is showing up well and is rich in native silver. It is under bond to Winnipeg people.

The Snow group of claims, in the Cariboo creek district, belonging to Maxwell and others, is to be stocked for a million.

Albert Stanley, of Nelson, recently purchased Captain Moore's interest in eleven Slooten claims. The sheriff sold the properties.

Osworne Plunkett, of Vancouver, has secured a short option on the Black Prince, and two adjoining claims on the south side of Lemmon creek.

Five outfits, employing about 30 men are working in the Jackson valley. The properties being worked are the Northern Belle, Sunset, Echo, Alameda and Lucky Boy.

This week 220 sacks of ore from the Promastora, will be shipped to the Trail smelter for treatment. If the result is satisfactory it means a great deal for Cariboo creek.

Several experts are looking at the Howard Fraction, on Springer creek. Another shipment will soon be made from this property. The last shipment to the Tacoma smelter brought back returns of 200 ounces silver and \$25 in gold to the ton.

PORT SIMPSON.

Port Simpson, Sept. 11.—The Vigilant arrived here from Metlakatla on the 1st. The naphtha launch Rita returned from the same place on the 10th. She returned with a large hunting party aboard.

Mr. H. E. Good has been succeeded in his meteorological work by Miss M. O'Neill. The former, who has been in the service of the Hudson Bay Co., will leave tomorrow for the Kootenay country. The U. S. lightship tender Manxapita, having been detained by the fog, dropped anchor here on the 1st on her way to Alaska.

The Banquo called on the 8th for a short time on her way from the Naas, without freight or mail and with very few passengers.

On the afternoon of the 9th the Nell came in loaded with lumber from Georgetown.

The fast and commodious steamship Boncovits arrived here safely from Victoria, after a trip of eight days. She returned from Naas river on the 10th, remained for an hour and left with every watercraft on board occupied.

The Nell came in again this evening.

GOLDEN.

Archdeacon McKay has been stricken down with scarlet fever.

Clas, Newham, aged 22, commonly known as "Capt. Snowball," an employee of the Golden Lumber Co., fell off the steamer Pert into the Columbia river and was drowned last Saturday evening. The deceased was buried on Monday afternoon.

As Li Hung Chang's special was nearing Flied on Saturday last the train, Dan Sutherland, of engine 465 fell off on his head severely injuring his brain. The unfortunate man was brought to Golden and conveyed to the hospital, where he is being attended by Drs. Taylor and Brett. The latest report states that the patient is improving gradually. It is reported that when Li Hung Chang heard of the accident he enquired the fireman's name and sent him a message of sympathy accompanied by a handsome cash present.

ASHCROFT.

R. C. Mining Journal.

Mr. Clemes, the well known English expert, is now in Lilbert investigating quartz property for his company.

Misses McDonald and Cameron, Seattle, spent a couple of days in Ashcroft last week and left on Monday by stage for the Cariboo country. They report a strong mining sentiment among the Seattle people and have good reports from Cariboo.

Fruit is a splendid crop in this vicinity this year. Apples, plums, some grapes and peaches, currants, and berries of all kinds. No country in the world can equal the Thompson river valley for the richness of fruit mentioned. No better climate for all the year around is known, taking health and comfort into consideration, than the climate of this part of British Columbia.

Philip Parke, one of the old timers, and for many years a prosperous farmer and stock raiser on the Bonaparte, was in town this week. Mr. Parke, when he was in his haying, will have stacked about 500 tons of hay and expects to winter his cattle, numbering 1,000 head, in good shape. Mr. Parke says experience has shown him that as a rule in this country a dry summer is exceeded by a light snow fall. The late rains will help the late feed, and the present outlook for stock to winter well is better than it was a few weeks ago.

On the morning of the steamer Charlotte on the Fraser, which will soon begin to make regular trips from Quenelle to Soda Creek, the journey by stage to Quenelle will be shortened to two days. Passengers leaving Ashcroft on Monday will stop at present at the 83 Mile House, 68 miles. The next day's drive will be a long one, 35 miles, but passengers will be landed at Soda Creek, so on board the steamer and comfortable rooms and beds will be at their service, and the next morning they will be at the dock at Quenelle. If they wish, the same night will see them at Barkerville after a ride of 60 miles. It will be an agreeable break in the journey to spend a night on the steamer and thereby escape 54 miles of staging.

The steamer will employ a crew of about seven men, and will serve meals on board. It is expected that next season the river will be navigated for a hundred miles or more above Quenelle, which will shorten the long journey to the Omineca mines. Captain Frank Odlin will be in command of the steamer.

GERMAN NAVAL TESTS.

Their Autumn Manoeuvres Conducted With Secrecy.

Berlin, Sept. 10.—Never before have the German naval manoeuvres, either in the Baltic or Mediterranean ocean been conducted with so much secrecy as during the autumn of the present year. There has always been a rule, strictly enforced, to exclude from witnessing these manoeuvres the naval attaches of the various nations accredited to Berlin, and to prevent, as far as possible, accurate reports of the evolutions reaching the press.

The manoeuvres, which lasted three weeks, were ended on Tuesday last at Heligoland. The evolutions there commenced on Sunday and consisted of an attempt on the part of the seven ships, including three huge ironclads, to effect a landing. One pair of the ironclads, the Sachson and the Wurtemberg, favored by a dense fog, approached within two miles of Heligoland, but were driven off after shelling the island for hours, by the effective fire from a battery of Howitzers placed there last summer by command of Emperor William. The long range Krupp fortification guns were also satisfactorily tested by Commander Stubbenrauch, the commander of the island. It was shown that a single shot from one of these big guns at a distance of over a mile can instantly disable the most powerful ironclad.

On Tuesday night the fleet was declared hors de combat.

The national meeting of the best sugar manufacturers was held in this city early in the week and a resolution was adopted asking the railroad committee to amend the existing laws by eliminating the paragraph restricting and localizing the amounts manufactured by each factory. The directors were also requested to prepare a plan for creating a German sugar syndicate, "in view of the dire needs of the industry," and the government was also asked to bring about an international agreement with France and Austria for the abrogation of direct and indirect export bounties, the uselessness whereof, it was asserted, was plainly demonstrated.

The army manoeuvres just completed were unusually prolific of fatal and serious accidents, owing to the weather and the bad roads. Count Von Kanitz, of the Fourth Dragoon, had a fatal fall during a charge, and seven other cavalry officers were seriously injured.

The International Congress of women's rights assemblies will meet in a few days in Berlin. Six hundred delegates are expected, including an American, Frances M. French.

The return of a gripe is feared in this city. Ten deaths from the disease have occurred during the week.

Captain R. K. Evans (Blazing Bob), of the United States naval attaché here, was tendered a farewell dinner at the Palace Hotel on Thursday last by the other military attaches. United States Ambassador Uhl gave a dinner in his honor on Tuesday. Captain and Mrs. Evans start for home on Monday.

A Child Cured of Eczema by Chase's Ointment.

"My six year old daughter, Bella, was afflicted with eczema for 24 months, the principal seat of eruption being behind her ears. I tried almost every remedy I saw advertised, bought innumerable medicines and soaps, and took the child to medical specialists in skin diseases, but without result. The doctor advised the use of Dr. Chase's Ointment, and since using the eruption has all disappeared, and I can confidently say my child is cured."

Mistress—Why do you flavor all your cakes and pies with vanilla? Didn't you find that lemon extract I bought? Everybody in the house is sick of vanilla. The things you bake are going to waste.

Cook—My young man, like vanilla, and the things are not going to waste. We need more vanilla. Shall I order it to-day?

Mistress (meekly)—Yes, if you can't get him to like lemon.—Cincinnati Enquirer.
